

Сведения о научном руководителе
диссертации Якушкиной Татьяны Сергеевны
на тему
«Исследование математических моделей эволюции, основанных на репликаторных системах».

Научный руководитель: Саакян Давид Багратович

Ученая степень: доктор физико-математических наук (1993), тема диссертации: «Исследование эффектов, связанных с выбором вакуума в моделях статистической физики с фазовыми переходами».

Должность: ведущий научный сотрудник

Место работы: Национальная научная лаборатория имени А. Алиханяна (Ереванский Физический Институт), Армения

Адрес: 0036, Ереван, ул. братьев Алиханян, 2

Тел.: +374 10 352041, +0374 77 901102

E-mail: saakian@yepphi.am

Список основных научных публикаций по специальности по специальности 05.13.18 — «Математическое моделирование, численные методы и комплексы программ» за последние 5 лет:
